Objective

Motivated Software Engineer with over 5 years of experience in the industry. Adept at designing, testing, and improving software applications. Looking to leverage my skills and experience to contribute to a forward-thinking company.

Skills

Programming languages: Python, Java, C++, JavaScript
Web development: HTML, CSS, ReactJS, Node.js
Databases: SQL, MongoDB
Tools: Git, Docker, Jenkins, AWS
Strong problem-solving abilities
Excellent communication skills

Work Experience

Software Engineer | XYZ Corporation | June 2018 – Present

Worked on a team of developers to maintain and improve a large-scale web application, resulting in a 20% increase in user engagement.
Implemented Agile/Scrum methodologies to improve team productivity.
Led the development and deployment of new features using Python and ReactJS.
Designed RESTful APIs and managed SQL databases.
Automated the deployment process using Docker and Jenkins.

Junior Software Engineer | ABC Inc | June 2016 – May 2018

Assisted in the design and development of a major software application, which increased company revenue by 15%.
Wrote efficient, maintainable code in Java and JavaScript.
Participated in code reviews, bug tracking, and project management.
Debugged and resolved software defects.

Education

Bachelor of Science in Computer Science | University of Anywhere | 2012 – 2016

Graduated with Honors.
Relevant coursework: Data Structures, Algorithms, Software Engineering, Databases.
